**WHY TRAVEL MATTERS**

Tourism is one of the world’s largest industries and one of the fastest growing. Tourism supports 319 million jobs (1 in 10 jobs) and generates 10.4% of global GDP. According to the World Travel & Tourism Council (WTTC), travel generated over $8.8 trillion for the world economy in 2018, growing at a pace of 6% and outpacing the global economy for the seventh successive year. WTTC projects that global Travel & Tourism contribution to direct GDP will grow annually by 3.7% over the next ten years.

Here in the United States, Travel & Tourism generates $2.5 trillion in economic output (12.9% of GDP) and supports 15.7 million U.S. jobs (1 in 10 jobs). Similar to global trends, travel has outpaced other industries in terms of growth and job creation. Travel ranks number six in terms of employment compared to other major private industry sectors. The impact is just as great in San Diego. Tourism is San Diego’s second largest traded industry (behind Research/Technology/Innovation), employing approximately 194,000 people - 13% of the jobs in the county. Travelers to the county annually spend $11.5 billion at San Diego businesses and generate $940 million in total taxes, of which $306 million are transient occupancy tax revenues that directly support San Diego’s quality of life - from paying police officers and firefighters to maintaining parks and recreation.

The impact of travel is felt by a large cross-section of industry sectors including accommodations, transportation, attractions, museums, restaurants, and retail. For more information, visit SanDiego.org/research.
